EMPLOYMENT

Full Stack Engineer (promoted 3x from intern) **Origami Risk / 2022 - Present**

- Led React adoption in Risk division by collaborating directly with design to iteratively build AI policy ingestion feature. Hosted React training sessions for 3 other teams.
- Optimized performance (100x) and improved usability of award-winning TCOR product.
- Became domain expert in reporting, RMIS, and other complex areas of legacy code.
- Built with .NET MVC, React, REST APIs, Sql Server, and various AWS services.

Web Designer & Developer (Volunteer) **Power Up North London / 2025 - 2026**

- Worked with stakeholders to design and implement a local nonprofit's new website under tight deadlines. Migrated, reorganized, and streamlined existing content.
- Created additional content, wrote copy, and took photographs for web and socials.
- Trained staff to be self-sufficient after website handoff.

Web Consultant (Volunteer) **Various Nonprofits & Art Groups / 2022 - Present**

- Provided technical help and design feedback on ad-hoc basis for Eat Club, Mayn Creative, Kentish Town Vegbox, and other local nonprofits, publications, etc.

Intern **Freshwater Collaborative of Wisconsin / 2021**

- Built interactive systems map using ArcGIS suite for freshwater science nonprofit.
- Wrote articles and created visualizations for outreach and media.

Camera Operator **Naturewatch / 2019 - 2020**

- Created nature documentaries for U.K. conservation organizations.

Photographer **University School of Milwaukee / 2019**

- Photographed summer campers aged 4-18 for marketing and socials.
- Designed and maintained web portal for parents to view camp photos.
